Re: Docket No. CP06-54, CP06-55 and CP06-56 for the Broadwater pipeline

Dear Mr. Salas,

I live in Connecticut and am very concerned about preserving the water quality of the Long Island Sound. Connecticut has worked hard to improve the condition of the Sound. I urge you to not support the LNG facility being proposed for Long Island Sound. It will endanger the health and safety of all concerned and should not be built.

I do not want to see any of the hundreds of millions of dollars or any of the countless man hours that have been spent improving the condition of the Sound go to waste with the construction of yet another destructive energy project in Long Island Sound.

Sincerely,

William B. Upholt
